

YWCC307 Team 7

Meeting 11/11/2022

Time: 3:00pm - 3:45pm via Discord

3:00 - 3:05 | All members joined the call.

3:05 - 3:15 | Slides were created, setting up a rough layout in which we would present our information.

3:15 - 3:35 | Conducted research on various database caching software that will suit our needs and are catered towards healthcare services. We also came up with our objective criteria in determining which of the products would be the most ideal to use.

3:35 - 3:45 | Assigned roles for each person to look into each of the three products and see if they fit our established criteria and to compare them with the other products.
